COMPANY PROFILE

An ISO 9001:2008 Certified Company

PRIDE OF GUJARAT

BAJARANG BRONZE LLP based in Rajkot, an industrial frontier of well developed state of GUJARAT, INDIA, was established in the year of 1990. The company is one of the leading manufacturer and exporter of comprehensive range of bushings and sleeve bushings for automobiles, tractors, earth movers and extra large heavy trailers plus, submersible pumps in brass, bronze and gunmetal with machining facilities.

We are also manufacturing graded cast iron parts and steel turned parts and as per OE specification, drawing or samples.

BRAND IMAGE :

Our brand 'TIGER' a name to reckon with quality and precision. Since its inception almost 25 years ago, TIGER brand has grown on a steady pace to live up to standards of high quality, durability and experience.

INFRASTRUCTURE :

We possess sound infrastructure equipped with most modern and advance manufacturing plant spread over 46800 sq. feet on double decker area plus large enough godown space for Storage.

We have our Research and Development division and processing facilities with designing department.

SLEEVE BUSHINGS :

**MATERIALS :**

Phosphorous Bronze, Aluminum Bronze & Leaded Bronze.

**PROCESS :**

Sand & Centrifugal casting

**RANGE :**

Size : Ø 10 mm to Ø 500 mm | Weight : Up to 100 kg.

**APPLICATION :**

Pneumatic & Hydraulic Machinery, Gear Box, Marine Engine, Forging unit, Railway, Nuclear and hydro Turbines, Off roads vehicles & all types of light & heavy duty machinery.

PLAN & PLANT

EXCELLENCE THROUGH APPLICATIONS :

We use only the special and standardized quality materials. All parts are manufactured as per International Standards and OE specifications. Since it is imperative that vehicle bushings and bearings demonstrate structural uniformity, our premium, solid bronze bearings offer properties that will not change as the surface layers wear away. Proper bronze alloys are selected to provide uninterrupted properties with natural lubricating film at the bearing/pin/shaft interface. Examples include bronze trunnion bushings, bronze insulator bushings, bronze king pin bushings and bronze cam bushings, to name a few. These solid bronze bushings and bearings have excellent wear characteristics in oscillating, high shock, heavy load applications.

Our chain of products reflects great skill, expertise and experience of our personnel. All our employees have specialized in their specific field of producing goods and services. Thus, we consider them the biggest assets of our company. This has also helped us in excelling in each of our products at the same time. We are equipped with drawing, designing, elaborate quality control facilities and continuous research and development activities which equally form the integral part of our organization. Our excellence is also seen when we develop the products as per the customers' specifications and drawings.

We believe in "MAKE IN INDIA" Concept.

BUSHES & IMPELLERS :

**MATERIALS :**

Leaded Bronze, Lead Tin Bronze & Aluminum Bronze.

**PROCESS :**

Sand & Centrifugal casting

**RANGE :**

Size : Ø 10 mm to Ø 500 mm | Weight : Up to 100 kg.

**APPLICATION :**

Submersible Water Pumps, Oil Pumps, Low Commercial Vehicles & Heavy Commercial Vehicles & all types of special purpose application.

**OUR SPECIALITY :** Through our unique process Bushing & Impeller work effectively in sea water too.

- Sleeve Bushings
- Bronze Bush
- Bronze Impeller
- Brass Bushings
- Centrifugal Casting
- Auto Parts Bushings
- Hydraulic Bushings
- Automobile Bushings
- Pump Bushings
- Submersible Bronze Bushings
- Earth Moving Bushings
- Tube & Rod
- Marine Brass Bushings

PRODUCT RANGE :

We are the pioneer & developers of the required products as per the customer's drawings and samples. We full fill the demand & desire of our valued customers and supply them proper and perfect products as per their needs. We always use best quality Brass, Bronze, Copper, Aluminum & all grade Alloys materials.

QUALITY & NETWORK

**QUALITY :**

Quality and perfection has been the foundation stones of success of the company. We use regular quality control measures of all critical operations, to nurture quality at all levels of the business. We not only emphasize the need for quality in all our operations but also constantly strive to maintain quality standards.

Our team of supervisors ensures each and every step of the production, from the procurement of raw materials to dispatch of the finished products, so that the desired quality standards are achieved at all levels of production process. Our comprehensive quality procedure adheres to the international quality standards.

**NETWORK :**

We have established nation wide marketing network to cater the needs of our esteem clients & to provide after sales services in time.

**OUR +POINTS :**

SOUND & IN-DEPTH EXPERIENCE, CONSTANT UP-GRADATION, INNOVATIVE CONCEPTS, DEDICATION & DEVOTION.

SHAFT, PISTONS & FLANGE :

**MATERIALS :**

Brass, Leaded Bronze, Lead Tin Bronze & Copper

**PROCESS :**

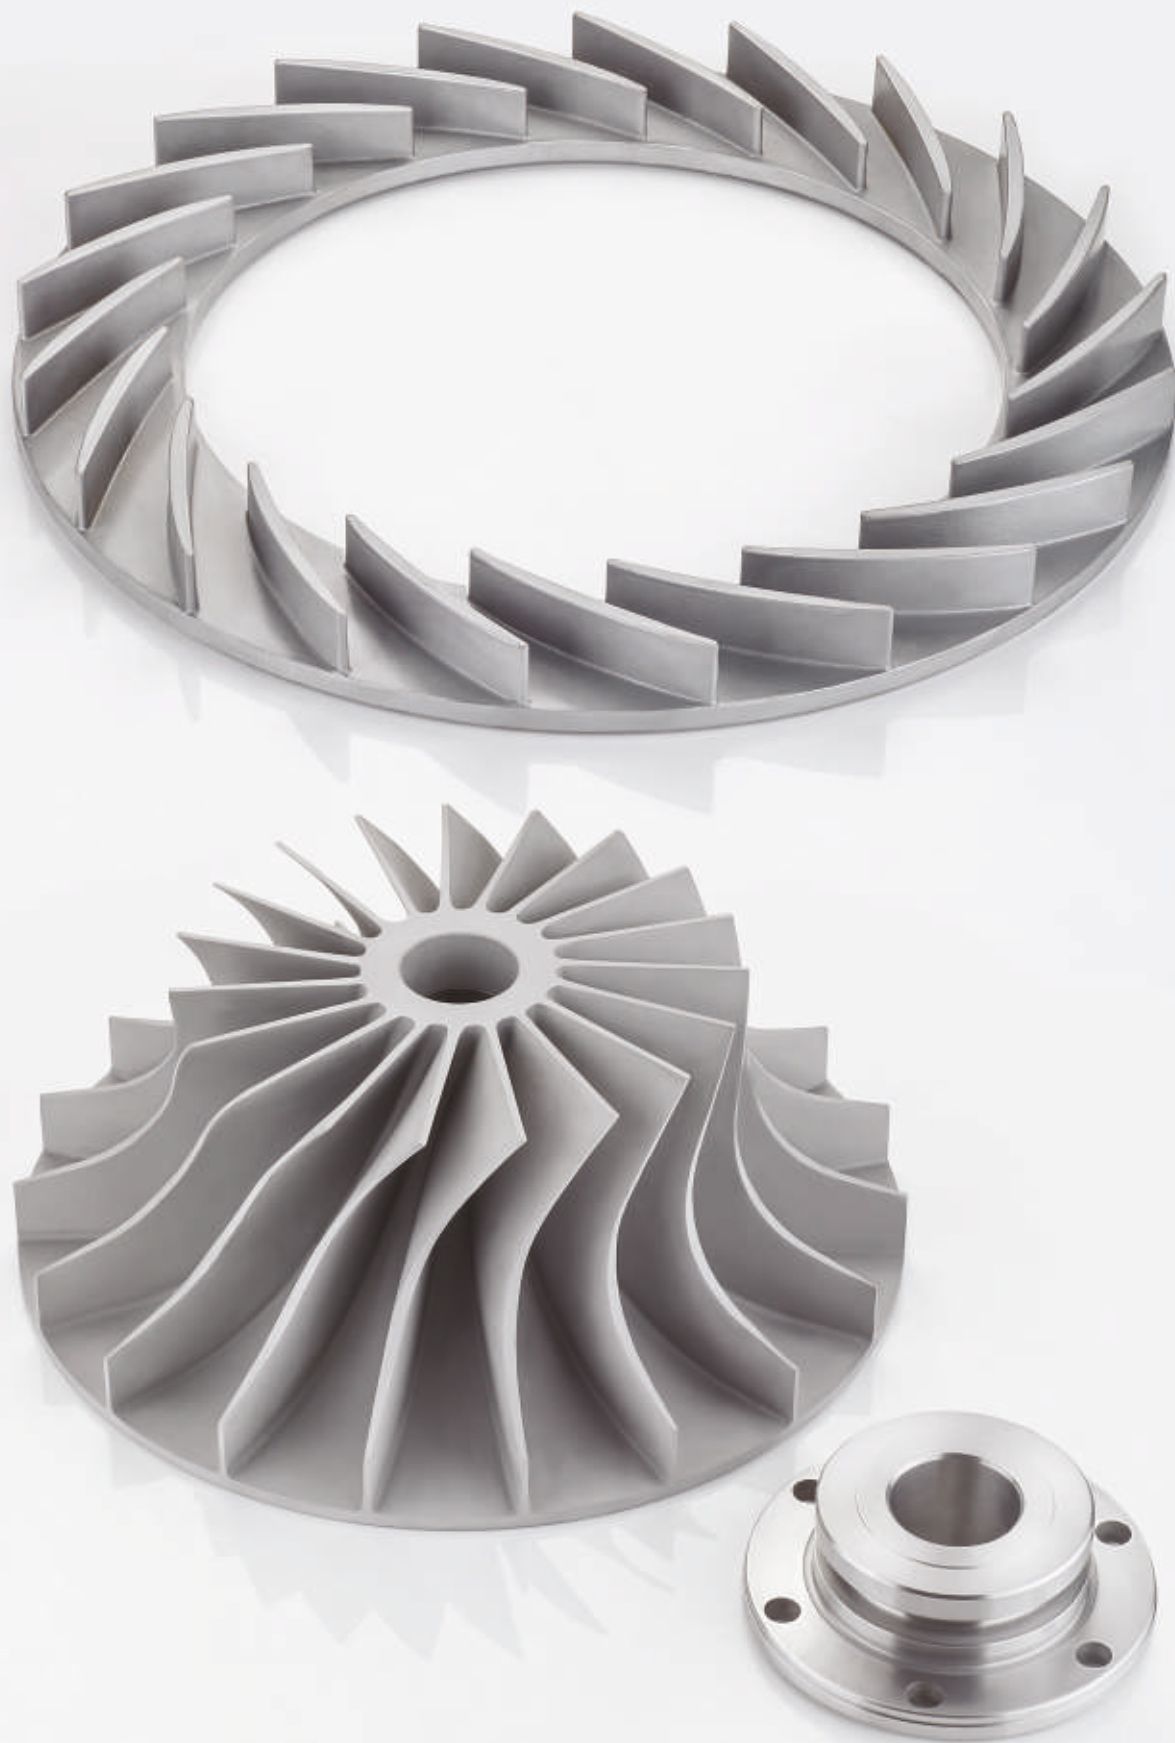

Sand & Shell Molding

**RANGE :**

As per Customers require

**APPLICATION :**

Heavy Valves for Chemicals & Waters supply systems.

APPLICATION

- Railway
- Forging unit
- Earth Movers
- Hydro Turbine
- Water Turbine
- Marine Engine
- Off roads vehicles
- Submersible Pumps
- Automobiles & Auto Parts
- Nuclear and hydro Turbines
- Pneumatic & Hydraulic Machinery
- Tractors & Extra Large Heavy Trailers

WHEELS & IMPELLERS :

**MATERIALS :**

All grade of Aluminum Alloys

**PROCESS :**

Sand & Shell Molding

**RANGE :**

As per Customers require

**APPLICATION :**

Hydro Turbine, Water Turbine, all type of water & air circulation.
